

PROJECT PROFILE

SEGMENTAL BLOCK FACING

Government > Dow Diamond Stadium in Midland, Michigan

Home to the LA Dodgers minor league affiliate, the Great Lakes Loons, is the Dow Diamond Stadium in Midland, Michigan. The stadium was completed in the Spring of 2006 and the first home game was held in April of 2007.

Walltek Design Build, Inc. built the retaining wall that defines and surrounds the stadium. Part of the wall system acts as the outfield fence, which retains a berm for additional seating and a pedestrian walking area.

This 31,000 square foot stadium was built using Keystone products and a Mirafi geogrid system.
